Attention: Mr. W. B. Humes  
Subject: S-50 TAILS MATERIAL

Gentlemen:

Enclosed is a copy of memorandum, subject as above, from Mr. Walter J. Williams regarding possible use of S-50 tails as supplementary K-25 feed and initial inventory for the K-29 and K-31 plants.

The use of the S-50 tails in K-25 has been discussed with Mr. A. P. Huber and a preliminary calculation indicated that an appreciable increase in the K-25 - K-27 production rate might be realized if the use of the material were authorized. We would appreciate your further consideration of the use of such material, particularly in connection with utilizing some portion for the K-29 and K-31 inventories, as indicated in the enclosed memorandum.

At your convenience we should like to meet with you to discuss possible formal recommendations on the use of this material.

Very truly yours,

Kenneth A. Dumber  
Director of Production  
and Engineering
